and Thermostats. Designed to meet your needs for either primary or supplemental heating,

Fahrenheit | Marley Engineered Products

After a little research, I chose a new Fahrenheit FUH54 garage heater. At 5000 watts, it is still undersized for my 24' x 28' garage, but it will provide more heat than my old heater did.

Fahrenheit makes a 7500 watt model also, but I would have had to run new wiring for that one. The existing wiring already had 10/3 cable, so the FUH54 was the ...
