www.zora.uzh.ch Year: 2018 Concepts in Light Microscopy of Viruses Witte, Robert ; Andriasyan, Vardan ; Georgi, Fanny ; Yakimovich, Artur ; Greber, Urs F Abstract: Viruses threaten humans, livestock, and plants, and are difficult to combat. Imaging of viruses by light microscopy is key to uncover the nature of known and emerging viruses in the quest for finding new ways to treat viral disease ...

Concepts in Light Microscopy of Viruses - UZH

In the HBV-Light structure that is described in UZH [44], the model does not consider overland flow and estimates snowmelt through a simple degree-day equation. In order to be more compliant with catchment conditions in arid and/or semi-arid regions, some modifications are made on the original HBV-Light structure. In improved HBV (IHBV), overland flow (the dashed line in Figure 1) is ...

Towards an Efficient Rainfall Runoff Model through ...

HBV model are given below; more detailed descriptions of the model can be found elsewhere (Bergström, 1995; Lindstrom et al., 1997; Seibert, 1999). HBV-light uses a warm-up period during which state variables evolve from standard initial values to their appropriate values according to meteorological conditions and parameter values. One ...

Teaching hydrological modeling with a user-friendly ...

The version of the model used in this study, [HBV light], corresponds in general to the original version described by Bergström (1992) with the exception that while the upper box of the groundwater routine is treated as lumped for the entire catchment in the original version, it is computed individually for each elevation zone here [see also Uhlenbrook et al., 1999].

University of Zurich - UZH

of the HBV protein HBx which promotes hepatocellular carcinoma by enhancing the degradation of the extracellular matrix (44) and downregulating cadherin (45). The surface-bound DNA-tumor viruses are in many cases taken up by endocytic
