Why were the Nazis so successful in deporting Jews? Why did families such as Anne Frank's get turned in?

Investigative journalist Ad van Liempt pulls back the curtain on the shocking practice of Dutch bounty hunters of the Jews, and reveals that ordinary citizens were prepared to turn

over their Jewish
countrymen in exchange
for cash. Van Liempt
examines in great detail
the careers of bounty
hunters and describes
some particularly
horrifying cases. The
most gripping are those
involving young
children. In one case,
two bounty hunters

miles to get their hands

on a two-year-old girl living in a safe house; a month later she was gassed at Sobibor. In court, the bounty hunters consistently maintained that they received no premiums for their work, but the author shows the opposite to be true and traces the money involved. This haunting book uncovers a facet of
