The core concepts and tools students need to make informed investment decisions. Fundamentals of Investing helps students make informed investment decisions in their personal and professional lives by providing a solid foundation of core concepts and tools. Gitman/Joehnk/Smart use practical, hands-on applications to introduce the topics and techniques used by both personal investors and money managers. The authors integrate a consistent framework based on learning goals to keep students focused on what is most important in each chapter. Students leave the course with the necessary information for developing, implementing, and monitoring a successful investment program.

Fundamentals of Investments focuses on students as investment managers, giving them information to act on by placing theory and research in the proper context. The text offers a balanced, unified treatment of the four main types of financial investments—stocks, bonds, options, and futures. Topics are organized in a way that makes them easy to apply—whether to a portfolio simulation or to real life—and supported with hands-on activities. Then, resources within Connect help students solve financial problems and apply what they’ve learned. Jordan’s managerial perspective and superior pedagogy combine with a complete digital solution to help students achieve higher outcomes in the course. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what

they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Revised edition of Fundamentals of investing, [2017]

For undergraduate investment courses. The core concepts and tools students need to make informed investment decisions Fundamentals of Investing uses practical, hands-on applications and examples to introduce the topics and techniques used by both personal investors and money managers. The text focuses on both individual securities and portfolios, teaching students to consider the risk and return of different types of investments and how to use this knowledge to achieve financial goals. A consistent framework centered around learning objectives keeps readers focused in each chapter while a conversational tone makes the language, concepts, and strategies accessible to students. With new topics and features added to the 14th Edition, Global Edition, the text remains up-to-date and relevant, so students leave the course equipped to develop, implement, and monitor a successful investment program.

Presenting applied theory alongside real-world examples, Fundamentals of Investment Management provides a survey of the important areas of investments: valuation, the marketplace, fixed income instruments and markets, equity instruments and markets, derivative instruments, and a cross-section of special topics, such as international markets and mutual funds. The text is user-friendly, but makes no concessions to the importance of
