Multilingual and American literature. It argues that while individual multilingual practices are highly singular, literary multilingualism exceeds the conventional bounds of modernism to become emblematic of the modern age. The book explores the confluence of multilingualism and modernity in the theme of barbarism, examining the significance of this theme to the relationship between language and modernity in the Spanish-speaking world, and the work of five authors in particular. As Dallas became the transportation and commercial center for North Texas, brick and stone edifices supplanted the simple frame structures of the early days. By the 1920s, the city was the financial capital of the region and boasted the tallest building west of the Mississippi.
