Task Force Tips - Task Force Tips—Customer Support

Task Force Tips (TFT) designs and manufactures thousands of fire nozzle, fire monitor, water and foam flow products to help firefighters risk less to do more. By combining extensive engineering, precise manufacturing and superior customer support, TFT customers around the globe are better able to save lives and property with the fire fighting equipment manufactured by TFT.

Task Force Tips - Task Force Tips Home Page - TFT

Step 1, Check your warranty. Most new computers come with at least a year of warranty. If your warranty is still active, contact the manufacturer to have it repaired for free or for a reduced price. Attempting the repair yourself will likely void the warranty. Step 2, Check the power indicator lights. If your monitor won't display an image, turn it on and watch the lights at the edge of the monitor. If one or more lights turn on, continue to the next step. If the lights won't light up, the ...

TFT LCD is a variant of a liquid-crystal display (LCD) that uses thin-film-transistor (TFT) technology to improve image qualities such as addressability and contrast. A TFT LCD is an active matrix LCD, in contrast to passive matrix LCDs or simple, direct-driven LCDs with a few segments. In Arduino-based projects, the processor frequency is low.
