Whether we are looking to write a book, make art, find new ways to address challenges in our work, embark on a dream long deferred, or simply infuse our everyday lives with more mindfulness and passion, Big Magic cracks open a world of wonder and joy.

Without a doubt, creative people get new ideas by seeing what other creative people are doing. The best sourcebooks aid this process by providing designers with vital mental stimulation. In *The Little Book of Creativity*, David E. Carter has taken a bold new approach. Instead of organizing categories by project type or medium (advertising, brochures, etc.), he has categorized over two hundred examples of creative work into concept categories such as photo manipulation, layout, typographic, texture, surprise, size and other creative areas. The result is a treasure trove of source material for what Carter calls “solitary brainstorming.”

A collection of hundreds of creative activities involving ordinary supplies found at home and including such projects and games as charting the wind, fingerpainting, making a digital clock, and playing metric shuffleboard.

For this book, the authors have selected the best games from the "Games Trainers Play" series and adapted them for any business professional. There are 75 games and activities to choose from, each designed to be fast and fun and to stimulate discussion.

This time around, Sarah includes chapters for mini projects and LEGO art, both of which have been popular categories on her blog but never explored in her

previous books. Younger kids can follow along with the simple step-by-step instructions that have made Dees's books the success they are today—they'll delight in making tiny zoos with unique animals, a classic diner complete with a soda fountain and a school classroom they can customize to look like their own. Older children will love building such action-packed pieces as a rescue mission helicopter, an air hockey table, and a surveillance car with rear-hinged getaway doors. For LEGO lovers of any age, there are instructions for making your own around-the-house gadgets, such as desk organizers, picture frames, and even lock-and-key safes. The Big Book of Amazing Lego Creations will be a top gift pick for every kid who craves variety in their LEGO crafting.
