Understanding our minds is becoming a reality. Guided by top neuroscientist Susan Greenfield, Brain Story attempts to answer the question “What is my mind and who am I?” We talk to philosophers, clinicians, neurosurgeons and their patients to discover quite what a finely balanced and complex machine the brain is. All in the Mind. Susan Greenfield explains why she believes all aspects of human experience will eventually be explained in terms of the physical processes of the brain.

We depend on one another for good health and wellness. The Brain Story is a story about how experiences shape our brains. As such, it is also a story about human relationships, because we depend on those around us for the experiences that build our brain architecture. As a community, when we identify how and when to support children and families in the course of development, we can change how the story unfolds so that all of us, regardless of background and life circumstances, have the ...
